

Using a Kanban board

Categorization exercise

Update the Kanban board

Review each project update. Then, select the column from the list with the update and move it to the Kanban board. Or, select **Move** to move the update to the correct column from the list.

3 of 4: **Project update**
Development finalized the template for the abandoned cart email, so it's ready to send.

To do	Doing	Blocked	Done
<div>Redesign delivery progress notifications</div> <div>MOVE</div>	<div>Create abandoned cart marketing email</div> <div>MOVE</div>	<div>Launch new food ordering app</div> <div>MOVE</div>	<div>Create new registration email</div> <div>MOVE</div>
<div>Add plates and flatware to online menu</div> <div>MOVE</div>	<div>Order new uniforms for delivery drivers</div> <div>✓</div>	<div>Roll out new delivery box design</div> <div>MOVE</div>	
		<div>Add ice cream inventory to online menu</div> <div>✓</div>
