

# Analyze key conversations

Multiple choice exercise

## Join Peta in stakeholder conversations

Follow the conversation by reading what each stakeholder has to say.  
After the conversation finishes, identify the correct task for the project.  
You'll reference this conversation again in Part 2 of the activity.

### Conversation

**Peta**  
Project manager

Hi Seydou, it's Peta.

**Peta**  
Project manager

Always! We just had a project meeting and discussed needing to train waitstaff on how to use the tablets. How does this typically get handled?

**Peta**  
Project manager

Hey Peta. More questions for me?

Good question. We've found that the best strategy is to train some key staff members at the location, and have them run the training.

Okay, so you would have the training at the location?

**Seydou**  
Restaurant consultant

Restaurant

### Select the project task

- Bring managers and waitstaff together for one training that covers everything.
- Schedule a training for a small group of managers, followed by waitstaff training at each location.
- Bring in a third-party vendor to train waitstaff in small groups.
