1. What is the primary role of the Development Team, also known as Developers? 1 / 1 point

- ☐ Ensure the team is building the right product
- ☐ Help the team understand why their work matters
- ☒ Build the product
- ☐ Maximize the value of the product delivered by the team

☒ Correct
The primary role of the Development Team is to build the product.

2. What are the primary responsibilities of a Product Owner? Select all that apply. 1 / 1 point

- ☒ Prioritizes the Product Backlog to optimize delivery and value to customers

☒ Correct
The Product Owner is responsible for prioritizing the Product Backlog. They also make sure that the Product Backlog is transparent and that the product or service fulfills customer needs.

- ☒ Makes sure the product or service fulfills the customer’s needs

☒ Correct
The Product Owner is responsible for making sure the product or service fulfills the customer's needs. They also prioritize the Product Backlog and ensure it is visible and transparent to all.

- ☒ Ensures the Product Backlog is visible and transparent to all

☒ Correct
The Product Owner is responsible for ensuring the Product Backlog is visible and transparent to everyone. They also prioritize the Product Backlog and ensure the product or service fulfills customer needs.

- ☐ Coaches the Scrum Team

3. What is the primary role of the Scrum Master? 1 / 1 point

- ☒ They promote and support the Scrum process by helping everyone understand and implement Scrum.
- ☐ They ensure the team is building the right product.
- ☐ They do the work to build the product.
- ☐ They work to continuously maximize the value of the product delivered by the Scrum Team.

☒ Correct
The primary role of the Scrum Master is to promote and support the Scrum process. Ultimately, the Scrum Master is accountable for the Scrum Team’s effectiveness.

4. Imagine you are a Scrum Master coaching Developers to embrace the traits of an effective Development Team: being cross-functional, self-organizing, and supportive. Which *additional* trait should effective Development Teams display? 1 / 1 point

- ☐ They should share expertise in the same discipline.
- ☒ They should be customer-oriented.
- ☐ They should work as individuals rather than as a team.
- ☐ They should operate independently, without direct oversight from the Product Owner.

☒ Correct
The Development Team includes the people who build the product. They should be customer-oriented, meaning they focus on the user when building their products.
