1. During a project you are managing, a major disaster shuts down the design facility. What is this type of event called?   1 / 1 point

   ⚪ An changelog
   ⚪ A start
   🔘 A deviation
   ⚪ A risk

   ✓ Correct

2. A project manager closely tracks the hours and pay rate of a writer contracting on an ongoing project. What item are they tracking?   1 / 1 point

   ⚪ Project schedule
   ⚪ Key tasks
   🔘 Project costs
   ⚪ Action items

   ✓ Correct

3. You manage a project with multiple milestones dependent on each other. One team must hit these milestones before another team can begin their tasks. What type of chart can you use to track this project?   1 / 1 point

   ⚪ Roadmap
   🔘 Gantt chart
   ⚪ Burndown chart
   ⚪ Project status report

   ✓ Correct

4. A burndown chart tracks time and amount of remaining tasks. What data is typically represented on the graph's X-axis, the horizontal axis?   1 / 1 point

   🔘 Remaining time on the project
   ⚪ Calculation of the sum of tasks
   ⚪ Assigned roles for the project
   ⚪ Remaining tasks on the project

   ✓ Correct

5. Imagine that an aerospace company builds a new line of passenger jets. Increased raw material costs cause the company to spend more on aluminum than planned. Which of the triple constraints does this change impact the most?   1 / 1 point

   ⚪ Timeline
   🔘 Budget
   ⚪ Scope

   ✓ Correct

6. Which of the following methods can be used to communicate change to stakeholders during a project? Select all that apply.   1 / 1 point

   ☑ Escalation email

   ✓ Correct

☐ Project charter

☑ Change request form

    ⊘ Correct

☐ Work breakdown structure

---

7. A demolition team needs permits from the city before they can begin work. What type of dependency is this?   1 / 1 point

    ○ Internal dependency

    ◉ External dependency

    ○ Discretionary dependency

    ○ Mandatory dependency

    ⊘ Correct

---

8. Imagine that a project manager creates a matrix with two variables: risk impact and probability. They use the matrix to measure potential future losses to a project resulting from specific activities or events. What is the project manager trying to determine?   1 / 1 point

    ○ Risk dependencies

    ○ Risk appetite

    ○ Risk management

    ◉ Risk exposure

    ⊘ Correct

---

9. When writing an escalation email, you open the email with "I hope you all had a great, long weekend." Which of the five keys to writing a strong escalation email is this an example of?   1 / 1 point

    ○ Make a request

    ◉ Maintain a friendly tone

    ○ Explain the consequences

    ○ Explain the issue

    ⊘ Correct

---

10. During the project, two members of your team settle on a decision for the project, which will negatively impact the project outcome. What issue does this represent?   1 / 1 point

    ○ Mid agreement

    ○ Trench wars

    ○ Risk appetite

    ◉ Bad compromises

    ⊘ Correct

---

11. As a project manager, you're implementing the ROAM technique for a new risk. You assign the risk to a team member so they can resolve it and monitor it to completion. Which ROAM action did you take?   1 / 1 point

    ○ Resolved

    ◉ Owned

    ○ Accepted

    ○ Mitigated

    ⊘ Correct
