> Give your project a descriptive title

Before submitting your risk management plan check it to make sure it meets the following criteria:

The author and status are listed at the top of the risk management plan. **(1 point)**

There is an objective that summarizes the purpose of the risk management plan. **(1 point)**

There is an executive summary outlining project goals, milestones, and potential risks. **(1 point)**

Each budget risk has the correct inherent risk level. **(3 points)**

Each schedule risk has the correct inherent risk level. **(3 points)**

The risk management plan explains how each budget risk will be mitigated. **(3 points)**

The risk management plan explains how each schedule risk will be mitigated. **(3 points)**

The risk management plan may be submitted as a Google doc or a downloadable file (.doc, .docx, .pdf).

If submitting the risk management plan as a Google doc, enter the URL below. You may also include an optional title or caption. **Please make sure to check the sharing settings to confirm your peers have "view" access. If your doc settings are not accessible to everyone, you may not receive a passing grade.** For more support on sharing settings, you can visit this resource⬈.
