1. Imagine you are a project manager and two of your team members disagree about how to approach a workflow problem. The debate leads   1 / 1 point
    to a personal conflict, so you listen to their arguments and propose a compromise that will move the project forward. During which stage of
    team development does this scenario take place?

    ⦿ Storming
    ○ Forming
    ○ Norming
    ○ Performing

    ⊘ Correct
       During the *storming* stage, you should listen to your team and try to resolve conflicts.

2. Imagine you are managing a local craft festival and one of the vendors requests a larger booth at the last minute. You delegate the issue to   1 / 1 point
    your operations coordinator because you're confident they can resolve it effectively. During which stage of team development does this
    scenario take place?

    ○ Norming
    ○ Storming
    ○ Forming
    ⦿ Performing

    ⊘ Correct
       During the *performing* stage, you should focus on delegating, motivating, and maintaining the team's momentum.

3. Imagine you are managing a team of people who haven't worked together before. You decide to schedule a lunch for the team to get   1 / 1 point
    acquainted and learn about the project. During which stage of team development does this scenario take place?

    ⦿ Forming
    ○ Norming
    ○ Storming
    ○ Performing

    ⊘ Correct
       During the *forming* stage, individuals on the team are just getting to know one another. At this time, you should provide guidance and
       clarify roles, goals, and context.

4. Imagine as a project manager on a new project, you introduce a new task check-in process to the team. The team picks up the process   1 / 1 point
    quickly, and you decide to continue it for the remainder of the project. During which stage of team development does this scenario take
    place?

    ○ Forming
    ⦿ Norming
    ○ Storming
    ○ Performing

    ⊘ Correct
       During the *norming* stage, you should codify norms, communicate them to the team, and reinforce them when needed.

5. What should project managers do to manage team dynamics? Select all that apply.   1 / 1 point

    ☑ Understand how to motivate the team.

       ⊘ Correct
          Teams function more cohesively when team members understand their roles and goals. Project managers should also
          forge a consensus, set clear goals, and create a safe and collaborative environment.

    ☑ Create a safe and collaborative environment.

       ⊘ Correct

When team members feel safe, they're willing to help one another and accept help when they need it. Project managers should also forge a consensus, set clear goals, and motivate the team.

☐ Allow team members to set their own task dependencies.

☑ Forge a consensus and set clear goals.

⊘ Correct
Team members have different skill sets and competing priorities. Project managers should set clear goals so that teams can focus on the tasks at hand. Project managers should also create a safe and collaborative environment and motivate the team.
